**abert**

**abert**

Abert nasce nel 1929 a Lumezzane, in provincia di Brescia: Antonio Bertoli dà inizio alla sua storia producendo artigianalmente posate in ottone. Negli anni '30 le materie prime utilizzate sono nichel e alluminio e nel 1950 l'acciaio entra stabilmente nei cicli di produzione, prendendo il posto di tutti gli altri materiali. Negli anni '60 verrà introdotta l'automatizzazione produttiva e nel 1975 Abert sarà la prima azienda al mondo ad ingegnerizzare i processi per la produzione di posate colorate con la combinazione di materiali come ABS, nylon e legno. Nel 1987 la sede si trasferisce a Passirano e nel 1993 acquisisce il marchio Facix e lo storico marchio milanese Broggi, leader di mercato nella posateria e nei complementi d'arredo per la tavola nel settore alberghiero. Nel 1994 è la prima azienda del settore ad ottenere la certificazione di qualità ISO 9002. Nel 2000 Abert cresce lanciando un nuovo progetto per il canale l'Ho.Re.Ca. con l'introduzione di una ampia gamma di prodotti professionali alberghieri.

Oggi, quasi novant'anni dopo la sua nascita, ancora guidata dalla famiglia Bertoli alla quarta generazione, Abert continua a puntare sull'innovazione, sulla qualità dei propri prodotti, sulla sensibilità e l'ascolto del cliente e sulla sua capacità di mutare insieme al mercato.

Abert pone da sempre al centro della propria attività valori che considera irrinunciabili: l'eccellenza delle materie prime, determinante per la performance dei propri prodotti, l'innovazione sulla base di processi produttivi e tecnologie d'avanguardia, la qualità dei prodotti che produce nei propri stabilimenti, a Passirano, il design che si traduce nella creazione di oggetti unici e che è alla base dello studio di ogni suo nuovo prodotto.

Per vincere le sfide del futuro Abert investe su se stessa e sui propri valori, che esprime con una forte cultura d'impresa ed azioni concrete, impegnandosi nella tutela e nella difesa dell'ambiente e nell'etica dei rapporti economici e sociali.

## STORIA • HISTORY

*Abert is founded in 1929 in Lumezzane, in the province of Brescia: Antonio Bertoli starts its story by manufacturing brass cutlery by hand. In the 30's the raw materials used are nickel and aluminium and in 1950 steel enters in the production cycles permanently, replacing all the other materials. In the '60s production automation is introduced and in 1975 Abert is the first company in the world to engineering the processes for the production of colored-handle cutlery with the combination of materials like ABS, nylon and wood. In 1987 the company headquarters move to Passirano and in 1993 Abert acquires the brand Facix and the historical Milanese brand Broggi, market leader in hotel cutlery and tableware. In 1994 it is the first company of the sector to achieve the quality certification ISO 9002. In 2000 Abert grows and launches a new project for the Ho.Re.Ca. channel with the introduction of a wide range of hotel professional products.*

*Today, almost ninety years after its birth, still led by the Bertoli family on its fourth generation, Abert goes on aiming at innovation, quality of its products, sensitivity and listening to its customers and on its capability of changing with the market.*

*Abert has always placed at the centre of its activities fundamental values: excellence of raw materials, crucial for the performance of its products, innovation on the base of production processes and state-of-the-art technologies, quality of the products it manufactures in its own factories in Passirano, design, that means creation of unique objects and which is the foundation of every new product.*

*In order to win the challenges of the future Abert invests on its own and on its values that expresses through a strong enterprise culture and concrete action, committing to protect and defend the environment and the ethics involved in economic and social relationships.*

### Ciclo di produzione

Il ciclo di produzione di forchette e cucchiai inizia con l'operazione di tranciatura (1). Per diminuire lo spessore della tazza rispetto al manico, si procede poi con la laminazione (2), e si prosegue con la rifilatura (3), per dare la forma della tazza o dei rebbi alla posata laminata. Infine si passa alla coniazione (4), nel corso della quale vengono dati la forma e i decori necessari. Per la lavorazione dei coltelli monoblocco forgiati si parte con la tranciatura del tondino in uno spezzone (1), che viene successivamente coniato a caldo (2), in modo da conferirgli una prima forma. Si prosegue con la tranciatura del manico (3) e con l'allungamento della lama (4); in seguito viene effettuata la tranciatura della lama (5), in modo da darle la forma reale. A questo punto rimane da definire la seghettatura sulla lama (6) e rifinire il coltello con le normali operazioni di pulitura. Le fasi di lavorazione dei coltelli a manico cavo forgiati parte con la tranciatura delle valve (1). Le due valve che costituiranno il manico cavo vengono coniate a freddo (2), per dare loro la convessità e i decori, e poi vengono accoppiate e saldate (3): ecco il manico del coltello infine, attraverso un composto autobloccante, viene assemblata e saldata al manico la lama (4), prodotta con le stesse tecniche dei coltelli monoblocco forgiati.

### Cutlery manufacturing process

Shearing (1) is the first step in the process of manufacturing forks and spoons. Rolling (2) is used to reduce the bowl thickness compared to that of the handle, and the next step is trimming (3) to give the shape of a bowl or prongs to the laminated implement. The final step is coining (4) during which the implement is shaped and ornamentation stamped. To make forged solid-handle knives the process begins by shearing a bar into a blank (1) that is then hot coined (2) so as to give it some initial shape. Afterwards the handle is sheared (3) and the blade is stretched (4). Then, the blade is sheared (5) so that it takes its final shape. Now blade serration (6) needs to be defined and the knife has to be polished as usual. The first step to make forged hollow-handle knives is shearing the shells (1). The two half-shells that will form the hollow handle are cold-coined (2) to obtain the convexity and stamp the decoration; afterwards the shells are coupled and welded (3). And that is how the knife handle is ready. Finally and by using a self-locking compound the blade, made applying the same techniques used to make forged solid-handle knives, is coupled and welded to the handle (4).

## Istruzioni d'uso e di manutenzione per la posateria e il vasellame in acciaio Inox

Lavare accuratamente i prodotti nuovi prima di utilizzarli. Utilizzare per il lavaggio acqua calda ed un buon sapone neutro, risciacquare in seguito con abbondante acqua tiepida ed asciugare scrupolosamente tutti gli articoli.

Non utilizzare per il lavaggio detersivi sintetici a base di cloro o prodotti comunque candeggianti.

Pomice, paglietta d'acciaio, spugnette o panni impregnati di polveri abrasive devono essere altresì rigorosamente esclusi. Possono invece essere utilizzati detersivi non clorurati contenente farina fossile.

E' consigliato il lavaggio degli articoli in acciaio Inox subito dopo il loro utilizzo. Qualora questo non fosse possibile è comunque importante non lasciare per più di 12 ore gli articoli sporchi a contatto con i residui alimentari (es: in caso di utilizzo degli articoli a pranzo, andrebbero lavati entro la sera del giorno stesso; in caso di utilizzo degli articoli a cena, andrebbero lavati entro la mattina del giorno seguente).

Nel caso fosse necessario un prelavaggio, questo deve essere fatto appena prima del lavaggio e per un tempo relativamente breve. Gli articoli non vanno infatti lasciati in ammollo nella soluzione lavante per troppo tempo in quanto alcune sostanze contenute negli alimenti sono dannose per l'acciaio Inox e ne alterano

l'aspetto. I coltelli e le lame dei coltelli (in caso di articolo a manico cavo) prodotte con un pregiato acciaio inox, sono sensibili agli attacchi corrosivi sviluppati dall'acido acetico, citrico, lattico ed in particolare da cloruro di sodio, presenti negli alimenti.

E' importante, sia in fase di prelavaggio che durante il lavaggio, tenere separate le normali posate (cucchiai, forchette, cucchiaini) dai coltelli e da altri oggetti metallici presenti in cucina.

Nel caso di lavaggio in lavastoviglie le posate devono essere inserite in cestelli verticali di plastica e tenute separate dai coltelli.

Asciugare accuratamente gli articoli con un panno morbido subito dopo il lavaggio, anche se il lavaggio è eseguito in lavastoviglie che prevede un ciclo di asciugatura automatica. Questo è necessario per evitare l'eventuale formazione di macchie dovute a depositi calcarei contenuti nell'acqua.

Non lasciare le posate nell'ambiente umido della lavastoviglie una volta terminato il ciclo di lavaggio, ma asciugarle e riporle in un ambiente asciutto.

Si consiglia di conservare gli articoli perfettamente asciutti, in un ambiente privo di umidità.

Per evitare rigature si consiglia di non conservare alla rinfusa gli articoli ma di riporli ordinatamente e proteggerli con un panno morbido.

## instructions for use and maintenance of stainless steel cutlery and hollowware

Wash the new products carefully before use.

Use hot water to wash them and a good neutral detergent; then, rinse out with lukewarm water and dry all the items thoroughly.

When washing, do not use chlorinated detergents nor products containing bleach.

Pumice, steel wool, sponges or cloths saturated with abrasive powders must be strictly avoided. However, detergents without chloride containing fossil flour can be used.

The washing of stainless steel items after use is recommended. in case that would not be possible, it is however important not to leave for more than 12 hours the dirty items in contact with food leftovers (e.g.: if the items are used at lunch, they should be washed within the evening; if the items are used at dinner, they should be washed within the following morning).

in case a prewash was needed, it must be carried out just before the washing and for a relatively short time. in fact, the items must not be soaked in the washing solution for too long, since some substances contained in food are damaging for the stainless steel and change its appearance. Knives and knife blades (for hollow

handle items) are manufactured with a valuable stainless steel and are sensitive to the corrosion attacks developed by acetic, citric and lactic acid and in particular to sodium chloride present in food.

It is important, both when pre-washing and washing, to keep cutlery like spoons, forks and tea spoons, separated from knives and other metal kitchenware.

in case of washing in dishwasher, spoons and forks must be placed into plastic vertical baskets and kept separated from knives.

Dry the items thoroughly immediately after the washing with a soft cloth, even if your dishwasher has a dry cycle.

That is necessary in order to avoid the possible formation of stains caused by calcareous deposits contained in the water.

Do not leave the cutlery in the humid environment of the dishwasher once the washing finishes; dry them and store them in a dry place.

It is recommended to storage the items perfectly dried and in a location without humidity.

in order to avoid scratches, it is recommended not to keep the items randomly, but if it is possible, to protect them by soft cloth.

Acabados de tendencia y tonos refinados que provocan nuevas sensaciones, transmiten estilo y personalizan la mise en place.

Trendige Oberflächen und raffinierte Nuancen, die neue Empfindungen wecken, Stil vermitteln und das Mise en Place personalisieren.

## FINITURE SPECIALI • SPECIAL FINISH

### Vintage

L'opacità, i graffi ed i segni volutamente prodotti sulla superficie delle posate con finitura Vintage danno la sensazione di oggetti vissuti ed utilizzati a lungo, di grandi cucine profumate, calde e piene di vapore, di convivialità di altri tempi, di sapori antichi. Evocano immagini di ambienti tradizionali, rustici e senza pretese di modernità.

Opacity, scratches and marks intentionally made on the surface of the cutlery with a Vintage finish give the effect of objects that have been used for a long time, of a large, warm and steamy kitchen filled with aromas, of the friendly gatherings of old good times and ancient flavours. They evoke images of traditional, simple environments with no intention to be modern.

L'opacité, les égratignures et les marques intentionnellement produites sur la surface des couverts à finition Vintage donnent le sentiment d'objets vécus et utilisés depuis longtemps, de grandes cuisines odorantes, chaudes et pleines de vapeur, de convivialité d'autrefois, de saveurs d'antan. Elles évoquent des images de lieux traditionnels, rustiques et sans prétention de modernité.

La opacidad, los rasguños y las marcas producidos deliberadamente en la superficie de los cubiertos con acabado Vintage dan la sensación de objetos vividos y utilizados por largo tiempo, de grandes cocinas perfumadas, cálidas y llenas de vapor, de convivialidad de otros tiempos, de sabores antiguos. Evocando imágenes de ambientes tradicionales, rústicos y sin pretensiones de modernidad.

Der Mattglanz, die "Kratzer" und gezielt in die Oberfläche eingearbeiteten Zeichen der Serie 'Vintage' verleihen diesem Besteck einen besonders raffinierten Look von seit langem benutzten Gegenständen, erinnern an die Atmosphäre großer gemütlicher Wohnküchen von früher, wo es herrlich nach den Gerichten unserer Kindheit duftete. Sie rufen Bilder traditioneller Ambiente wach, ohne dem Anspruch moderner Stilformen nachzugeben.

### Polvere di Luna

La finitura Polvere di Luna rende l'aspetto delle posate satinato e delicatamente brillante: una superficie levigata con chiaroscuri. Piacevoli e vellutate al tatto, trasmettono una morbidezza ed un calore inconsueto per oggetti di acciaio. Un rivestimento sobrio ed inusuale per posate contemporanee.

The Polvere di Luna finish makes cutlery surface look satin-like and delicately brilliant: a smooth surface with contrasting shades. Pleasant and velvety to the touch, the cutlery so treated convey a softness and warmth unusual for steel objects. A sober and unusual coating for contemporary cutlery.

La finition Polvere di Luna rend l'aspect des couverts satiné et délicatement brillant : une surface polie avec des clairs-obscur. Agréables et veloutées au toucher, ils transmettent une douceur et une chaleur insolites pour des objets en acier. Un revêtement sobre et inusuel pour des couverts contemporains.

El acabado Polvere di Luna confiere a los cubiertos un aspecto satinado y delicadamente brillante: una superficie pulida con claroscuros. Agradables y aterciopelados al tacto, transmiten una suavidad y una calidez insólitas en objetos de acero. Un revestimiento sobrio e inusual para cubiertos contemporáneos.

Die Oberflächenbearbeitung 'Polvere di Luna' verleiht dem Besteck samt dem Glanz mit edlen hell-dunkel Schattierungen. Von ausgesprochen gepflegter Haptik, liegt dieses Besteck weich und besonders angenehm in der Hand und strahlt eine für Stahl ungewöhnliche Wärme aus. Ein dezentes und einzigartiges Oberflächenfinish für zeitgenössisches Besteck.

### Scotch-Brite

Questo effetto superficiale, tipicamente utilizzato nell'architettura di interni, è caratterizzato dalla presenza di molteplici e lievissime graffiature longitudinali; dona al metallo una sembianza velata e luminosa al tempo stesso, conferendo agli oggetti che riveste un aspetto di brillantezza pacata, di acciaio non lucente. Per utensili che evocano il design di stile nordico.

This superficial effect, typically used in the interior architecture, is characterized by the presence of numerous and very light longitudinal scratches; it adds to the metal a veiled and bright appearance at the same time, bestowing to the objects it covers an aspect of measured brilliance, of non-glowing steel. For tools that evoke northern design.

Cet effet de surface, typiquement utilisé dans l'architecture d'intérieur, se caractérise par la présence de plusieurs et très légères éraflures longitudinales; cela rend le métal d'une apparence voilée et lumineuse en même temps, en donnant aux objets un aspect d'éclat paisible, d'acier pas brillant. Pour outils qui évoquent le design du style nordique.

Este efecto superficial, típicamente utilizado en la arquitectura de interiores, se caracteriza por la presencia de múltiples rasguños longitudinales; proporciona al metal una apariencia velada y luminosa al mismo tiempo, otorgando a los objetos que cubre un aspecto de brillo sosegado, de acero no reluciente. Para utensilios que evocan diseño de estilo nórdico.

Dieser Oberflächeneffekt, der typischerweise in der Innenarchitektur verwendet wird, charakterisiert sich für das Vorhandensein mehrerer und sehr geringer Längskratzer. Es verleiht dem Metall gleichzeitig einen verschleihten und leuchtenden Anschein und verleiht den Objekten, die es abdeckt, einen Aspekt ruhiger Brillanz und nicht glänzenden Stahls. Scotch-brite ist ideal für Werkzeuge, die an das nordische Design erinnern.

## PVD

The PVD (Physical Vapour Deposition) technique allows to deposit a high-thickness metal film with remarkable characteristics from the decorative and technical point of view. Such process makes the product treated durable in time and gives high surface hardness. The item turns resistant to solvents, acids and to various products used in the kitchen, keeping its chemical/physical characteristics unchanged. It is a thoroughly biocompatible, anallergic treatment and suitable for food contact.

La technique PVD (Physical Vapour Deposition) permet de déposer un film métallique de haute épaisseur avec des caractéristiques surprenantes du point de vue décoratif et technique. Ce processus rend le produit traité durable et confère une dureté superficielle élevée. L'article devient résistant aux solvants, aux acides et aux différents produits employés en cuisine, gardant intactes ses propres caractéristiques chimio/physiques. C'est un traitement absolument biocompatible, anallergique et approprié au contact avec la nourriture.

La técnica PVD (Physical Vapour Deposition) permite depositar una película metálica de alto grosor con características sorprendentes desde el punto de vista decorativo y técnico. Este procedimiento hace que el producto tratado sea duradero en el tiempo y le

confiere una elevada dureza superficial. El artículo se torna resistente a los solventes, a los ácidos y a los diversos productos empleados en la cocina, manteniendo intactas sus características químico/físicas. Es un tratamiento absolutamente biocompatible, antialérgico y apto para el contacto con los alimentos.

Die PVD Technik ermöglicht die Beschichtung mit einem dickwandigen Metallfilm von überraschenden dekorativen und technischen Merkmalen. Das Verfahren verleiht dem Produkt längere Lebensdauer und eine ausgeprägte Oberflächenhärte, macht beständig gegen Lösungsmittel, Säuren und verschiedene Haushaltsmittel, wobei die chemischen und physischen Eigenschaften des Produkts selbst intakt bleiben. Die Behandlung ist absolut bioverträglich, allergenfrei und lebensmitteltauglich.

La tecnica PVD (Physical Vapour Deposition) permette di depositare un film metallico di alto spessore con caratteristiche sorprendenti dal punto di vista decorativo e tecnico. Questo procedimento rende il prodotto trattato durevole nel tempo e conferisce elevata durezza superficiale. L'articolo diventa resistente ai solventi, agli acidi e a vari prodotti usati in cucina, mantenendo intatte le proprie caratteristiche chimico/fisiche. E' un trattamento assolutamente biocompatibile, anallergico ed idoneo al contatto con il cibo.

**Abert presenta Double, il nuovo utensile per... l'assaggio!**

**innovativo:** grazie alla sua forma metà cucchiaio e metà forchetta è l'unico strumento in grado di permettere assaggi di cibi liquidi e solidi.

**Irrrinunciabile per gli chef,** che possono finalmente sperimentare tutte le loro preparazioni con un solo oggetto nel taschino.

**ingegnoso e pratico** per assaporare i cibi in occasione di degustazioni, aperitivi o buffet.

**Abert presents Double, the new tool for... tasting!**

**innovative:** thanks to its shape half spoon and half fork, it is an instrument able to allow tastes of liquid and solid foods.

**Essential for chefs,** who can at last experiment all their preparations with just one object in their small pocket.

**ingenious and practical** in order to savour foods at tastings, happy hours or buffets.

**Celsius** è il nuovo piatto che mantiene costante la temperatura delle pietanze senza continuare il processo di cottura, per conservare al meglio il gusto di ogni ricetta.

Design moderno ed essenziale, che si abbina a ogni mise en place e innovativa funzionalità grazie alla presa ergonomica della base in legno, che protegge dalle scottature.

La piastra in alluminio viene **riscaldata in forno**, regolando temperatura e tempo a seconda della pietanza, per poi essere posizionata sotto il piatto in acciaio che, a contatto con gli alimenti, **mantiene costante la temperatura** del cibo durante il pasto.

Celsius è un prodotto **igienico e di facile pulizia**: il piatto in acciaio (unica componente a contatto con gli alimenti) è comodamente lavabile in lavastoviglie, a differenza delle pietre ollari che assorbono i grassi, non sono lavabili e alterano lo stato di cottura delle pietanze.

Celsius è disponibile in quattro versioni per rispondere a ogni esigenza, dal singolo posto tavola ai momenti di convivialità, e in due forme adatte a diverse tipologie di pietanze come ad esempio le carni e la pizza.

**Celsius. Per non servire più cibi freddi!**

**Celsius** is the new plate that keeps food temperature constant without continuing the cooking process, to best preserve the taste of every recipe.

Modern and essential design, matching with every place setting, and innovative functionality, thanks to the ergonomic grip, and the wood base, that protects from burning.

The aluminum plate is **warmed into the oven**, adjusting temperature and time based on the food; then it is placed under the steel plate that, in contact with food, **keeps its temperature constant** during the meal.

Celsius is a healthy product and **easy to clean**: the steel plate (the only component in contact with food) is dishwasher safe while, for instance, soapstone, that absorbs fat, is not washable and alters food cooking.

Celsius comes in four versions to meet every need, from the individual place setting to the large gatherings, and in two different shapes, suitable for different foods, like meat and pizza.

**Celsius. You will not serve cold food anymore!**

### Caratteristiche tecniche

- A** Asportabilità del coperchio a 90° con estrema facilità.
- B** Coperchio leggero e facilmente maneggiabile.
- C** Blocco automatico dell'estrazione del coperchio in fase di lavoro (da 0° a 89°).
- D** Chiusura e apertura frenata del coperchio. Sistema di cerniere brevettate Abert
- E** Il coperchio si ferma, quando è lasciato, in qualsiasi posizione da 0° a 70°.
- F** Superati i 70° il coperchio si apre completamente lasciandolo andare.
- G** La cerniera è un meccanismo a molla, inalterabile nel tempo, non necessita di regolazione e di manutenzione in quanto non ha frizione.
- H** Tutti i meccanismi sono costruiti in pregiati materiali inossidabili, quindi resistenti alla corrosione, agli ambienti umidi e adatti al contatto con gli alimenti.
- I** Lo scaldavivande è progettato per raccogliere la condensa in modo da lasciare il piano di appoggio completamente asciutto.
- L** Può essere utilizzato sia con riscaldamento elettrico sia con fornelli a combustibile solido.

### Technical characteristics

- A** Easily removable cover, at 90°.
- B** Light and easy-to-handle cover.
- C** Automatic block of cover pull out when in operation (from 0° to 89°).
- D** Closing and opening slowed by cover. Abert patented system.
- E** The cover stops, when released, in any position from 0° to 70°.
- F** Over 70° the cover opens fully when released.
- G** The hinge is a spring mechanism, inalterable in time, it does not need regulation and maintenance as it has no clutch.
- L** All the machineries are built in refined stainless materials, thus resistant to corrosion, humid environment and suitable for food contact.
- I** The chafing dish is designed to collect condensation, in order to keep the support base completely dry.
- L** Both electric warming and solid-fuelburners can be used.

## Revolution

Un'idea nuova ed originale nel concetto Buffet: **Mix&Play Revolution** consente con un tocco di creatività e fantasia di presentare cibi, bevande, stuzzichini ecc. ispirandosi ai diversi momenti di consumo (dalla colazione all'aperitivo) e alle tipologie dei locali. Un'opera d'arte che coniuga modernità e funzionalità in un prodotto che non ha eguali.

Le strutture in alluminio sono state pensate per soddisfare le differenti esigenze di spazio e di consumo del cliente. Sono l'esempio per eccellenza del concetto modulare consentendo la composizione di 5 differenti misure delle basi (2 quadrate e 3 rettangolari) per 3 differenti altezze. Con la creatività è possibile adattare **Mix&Play Revolution** Buffet al proprio spazio e creare sempre nuove ed originali presentazioni.

**7 nuove composizioni studiate per facilitare la creazione del vostro buffet.**

*A new and original idea for the buffet: **Mix&Play Revolution** allows to present food and beverages etc. at different times of the day and different kinds of place, with an incredible touch of creativity and fantasy. A work of art that matches modern day practicality in just one product. The only one!*

*The metal podio are created to satisfy the different needs of space and consumption. They are easy excellent example of modular concept allowing the composition of 5 different sizes of base (2 square and 3 rectangular) for 3 different heights. By being creative it is possible to adapt **Mix&Play Revolution** Buffet to any kind of space and always provide new and fantastic Buffet.*

**7 new arrangements studied to make the preparation of your buffet easier.**

|---------------|--------|--------------|
| V76 05 23 005 | 29,5x7 | 11,5/8x2,3/4 |

Un oggetto **elegante e contemporaneo**, adatto a ogni tipo di buffet: grazie al design unico e innovativo.

I materiali usati sono di **alto livello qualitativo** - acciaio Inox 18/10 e metacrilato - e rendono il distributore un oggetto pregiato.

**MADE IN ITALY**

La **tecnologia semplice**, ma al tempo stesso funzionale, permette di erogare dosi da 8gr (0.28 oz) di prodotto, riducendo gli sprechi ed eliminando le monoporzioni da 25gr (0.88 oz).

Questo consente un risparmio di prodotto e la riduzione dei rifiuti

nel rispetto dell'ambiente. inoltre è ideale per servire miele e marmellate di produzione artigianale, per fornire un prodotto di alto livello e che soddisfi anche i clienti più esigenti.

Un ottimo modo per arricchire l'esperienza della colazione, mantenendo **ordinato e pulito** il buffet.

Utilizzabile con prodotti erogabili semisolidi, come confetture, marmellate - pure con piccoli frammenti di frutta - e creme, ma anche con miele, sciroppi e salse di analoga consistenza.

Jambee è l'ideale per **ogni struttura ricettiva**: alberghi, pasticcerie, bar e ristoranti.

An **elegant and modern** object for all buffets, thanks to its unique and innovative design.

The materials used are **high quality** – 18/10 stainless steel and methacrylate – which makes the dispenser a fine object.

**MADE IN ITALY**

Its **simple technology**, though functional, allows to dispense 8 gr (0.28 oz) product doses, to reduce waste and get rid of 25 gr (0.88 oz) single dose jars.

That allows, as well, to save on product and reduce waste, respecting the environment.

Moreover, it is the ideal to dispense honey and homemade jams, in order to supply for a high-end product, capable of meeting even the most demanding customers' needs.

The best way to make the most of the breakfast experience, keeping the buffet **tidy and clean**.

It can be used with dispensable semisolid products like preserves, marmalades – even with small fruit pieces in them – , creams and honey, syrups and sauces as well, which have the same consistency. Jambee is the ideal for **any accommodation facility**: hotels, pastry shops, bars and restaurants.

**COOK & SERVE**

Il nuovo tegame Cook & Serve è una soluzione comoda e pratica. Ideale per la cottura degli alimenti grazie al fondo di 2mm e alla conducibilità dell'alluminio, che permette una diffusione uniforme del calore sull'intera superficie. Leggero, maneggevole ed elegante, diventa un accessorio perfetto anche per il servizio in tavola.

**COOK & SERVE**

*The new pan Cook & Serve is a convenient and practical solution.*

*Ideal for cooking food, thanks to its 2-mm bottom and to aluminum conductivity, that allows a uniform heat diffusion on the whole surface.*

*Light, easy to handle and elegant, it becomes the perfect tool for the table service as well.*
